

16th April 2024 – 24th May 2024

Subject	What is my child learning about at school?
<p>Communication and Language</p>	<p>This term we will be focusing on understanding who, what and where questions, extending the children’s vocabulary by grouping and naming objects and exploring the meaning of new words.</p> <p>Here’s some of the key vocabulary that we will be using over the term. Crow, Long, Longer, Longest, Short, Shorter, Shortest, Younger, Older, Same, Similar, Different, Toddler, Baby, Predict, Compare.</p>
<p>How to help at home: You could ask your child to identify an object or person using who, what and where questions. For example. Who is wearing the yellow hat? What does a construction worker do? Where is the bird sitting?</p> <p>You could also have pictures to show the meaning of these words. For example, a long stick next to a longer stick. Compare the size or weight of 2 objects from around your home.</p>	
<p>Literacy</p>	<p>Talk 4 Writing Your child is learning to use their confident voice to retell stories using a ‘Talk for Writing’ approach. The story that we will be learning this term is The Very Hungry Caterpillar by Eric Carle. We will begin by retelling this story as a class using actions with our bodies. The children will work towards retelling the story independently, using props and story maps. Your child will continue learning about the structure of a story (beginning, middle and end) and make predictions about what might happen next within the story. We are also starting to write simple sentences about the story with a particular focus on finger spaces between words.</p> <p>Sounds-Write(Phonics) Your child is learning to segment and blend the sounds together in CVC words. For example, log, kit, bed, mat, red, hop. We will practise these skills during sounds lessons every day, using word builders, read and spells and symbol swap activities. These experiences will support your child when applying this knowledge in their independent reading and writing.</p> <p style="text-align: center;">We will be focusing on the following sounds:</p> <p style="text-align: center;">a,i,m,s,t,n,o,p,b,c,g,h,d,f,v,e,k,l,r,u,j,w,z,k,l,r,u</p>
<p>How to help at home: Please continue to read with your child every day and support them to read simple 3 sound words such as ‘jug’ by saying the sounds and blending them together. Close the book after they have finished reading and ask them to tell you the sounds in some of the simple words contained in the text. For example, “Can you tell me the sounds in mat?” Your child should be able to begin to say the individual sounds as “m-a-t.” This questioning will support them to apply their sounds to their writing as well. Also, please continue to read to your child regularly (fiction and non-fiction texts). This will support their phonic knowledge and help them build a broad and rich vocabulary. When you are reading with your child, please ensure that you ask questions related to the text to continue to develop your child’s comprehension skills.</p>	
<p>Mathematics</p>	<p>This term the children will be identifying shape similarities and differences of objects, and we will be using common shape names. The children will be comparing two small groups of up to five objects, saying when there are the same number of objects in each group, e.g. You’ve got two, I’ve got two. We have the same!</p>
<p>How to help at home: You could go on a shape hunt around your home and identify the shapes of the objects that you find, speak about the shapes attributes, ‘The square has 4 sides and 4 corners’. Compare groups of toys and ask your child to identify which group has more, less or the same amount’.</p>	
<p>Knowledge</p> <p>Expressive Art and Design, Understanding the World</p>	<p>All pupils across the school will focus on the enquiry question “In what way is the world around us diverse?” Seacole Class will be looking at how we grow and what changes have you noticed happen to your body? We will also be looking at the things we can do now compared to when we were a baby and other things that change around us.</p> <p>We will explore the life cycles of Chicks, mammals and minibeasts and discuss the differences between them, how they grow and change through their cycle.</p>
<p>How to help at home: Please show your child pictures of them when they were a baby and ask them to tell you what has changed about them, you could speak about their height, their hair, crawling as a baby and how they learnt how to walk.</p> <p>You could look at books that show Life-cycles of different animals or watch a video to see how they change over time.</p>	
<p>Character</p> <p>Personal Social Development, Music, Spanish and Zones of Regulation</p>	<p>All pupils across the school will be using the zones of regulation. The zone of regulation is about the different emotions we feel. Your child will learn about the different colour zones of regulation and what they are. Each day we will look at a different colour zone using flash cards to see what emotion is linked to which colour.</p> <p>Zone colours: Blue- sad, Green-Happy, Yellow-Silly, Red-Angru</p>

	<p>In our Jigsaw lessons, we will be focusing on the topic of 'Relationships'. We will be discussing who is in our families and the friendships we have, we will also talk about different ways we can make new friendships and identify what we like about our friends.</p> <p>Your child sings with their class every day for enjoyment and to reinforce their learning. We will be continuing our learning of instrument families (string, brass, percussion, woodwind) as well as exploring beat, rhythm, tempo (fast and slow) and dynamics (loud and soft). Your child will also be using instruments to add sound effects to a story. We will listen to the different sounds that instruments make and discuss how they sound and what types of things they could represent in our story.</p> <p>Spanish This half term we will be learning animal names in Spanish. We will also be listening and dancing to some Spanish music.</p>
<p>How to help at home: Please speak with your child about the different people in their family and their friendships both in and outside of school.</p>	
<p>Physical Development</p>	<p>This term your child will be preparing for sports day, this will include a variety of activities to support and embed what we have learnt throughout the school year. In preparation to show you all their achievements in PE. We will continue to work on your children's fine and gross motor skills within the classroom and out of the classroom.</p>
<p>How to help at home: Encourage your child with dressing routines, focussing on outer wear. Such as putting their shoes on the right feet and zipping their coats up independently. You could also use climbing equipment in your local parks or playgrounds to get your child to climb to a range of heights. When at the playground support your children to be aware of and alert to possible danger, while recognising and encouraging their sense of exploration and risk taking.</p>
