

This half term, we will incorporate small group work guided by an adult, alongside elements of free choice activities throughout day. These activities will be linked to the Year 1 curriculum.

Subject	What is my child learning about at school?
English	<p>Your child will be learning to retell the story of Farmer Duck. They will be completely immersed in the book as they explore the characters and narrative. Through drama, they will explore the varying characteristics of each character and the different values that the book explores.</p> <p>They will then develop their own 'conquering a monster tale' using this story as the starting point. Each day they will practise rehearsing perfect oral sentences and begin to independently write them in small groups. This half term will have a particular focus on using persuasive language and conveying this using a confident voice within the classroom. Over the half term the children will be focusing on non-fiction writing and will learn to edit their writing ensuring that they have a capital letter and full stop.</p>
	<p>You could support by asking your child to retell you the story at home. They should practise using full sentences, actions and expression in their voice. In order to support their understanding of persuasive language why not include this within your home or when going to the shops?</p>
Writing	<p>Nelson Handwriting Your child is practising with their 'Perfect Pencil Grip' and 'Posture for Writing'. Pupils are writing number digits and single letters, joined up letters that make a single sound, words and full sentences.</p> 
	<p>You could support by continuing to practise upper and lower case letters at home, as appropriate. You could also encourage them to write with independence; especially for homework tasks as the expectations for children's independent writing stamina is significantly increased in Year 1.</p>
Reading	<p>Sounds-Write (Phonics) Your child is practising their skills of:</p> <ul style="list-style-type: none"> • segmenting (breaking words apart. e.g. plank is p-l-a-n-k); • blending (putting sounds together to make words. e.g. s-p-e-n-t is spent); and • phoneme manipulation e.g. In 'eat' the <ea> makes the /ee/ sound, while in 'break' it makes the /ae/ sound.
	<p>Books will be going home weekly on a Tuesday and Friday. If books are lost there will be £5 fee to be paid at the office.</p> <p>Please use your child's reading journal to take note of when/what they have read at home. These are to be in school everyday.</p>
	<p>You could support by listening to your child read their reading book every night at home. Encourage them to 'say the sounds and read the word'. Exposure to new words that they have to apply their phonic knowledge to, will also help to keep them on track ahead of their phonics challenge in June. You could also read harder texts with your child which they cannot read for themselves but can discuss with you throughout in order to support their comprehension skills and love for reading.</p>
Mathematics	<p>Your child will be looking at quantities and measure this half term. They will focus on height, measure, volume/capacity and weight/mass. They will look at a variety of representations to show these, and develop their comparison skills, using mathematical symbols.</p> <p>The children will learn that a whole group of objects can be composed of two or more parts and this can be represented using a part-part-whole 'cherry' diagram.</p>
	<p>You could support by using the language of more, less, compare at home. When discussing numbers try to use the term 'numeral' to help their learning as well as supporting them to practise their number formation. You could also help your child with their number bonds to 10 so that they can confidently take their 10/10 badge.</p>

<p>Core Knowledge</p>	<p>In R.E. your child is learning about Christianity. They will explore the story of creation and discuss how Christians believe this to be the start of the world.</p> <p>In Science, your child is learning about the human body with a particular focus on senses. The children will also be learning about Helen Keller for whom her disability did not hold her back in her learning.</p> <p>In Geography, pupils are learning about spatial sense. This includes the idea that a map is a representation of a location but from an aerial perspective. They will look at maps of different scales e.g. the world, Europe, the United Kingdom, London, our local area, our school.</p> <p>Children will use positional language to describe location e.g. above, next to and forwards, as well as North, South, East and West.</p> <p>In Spanish, children will begin to verbally explore animal names. They will engage with this through games, music, drama and informal classroom conversations.</p> <p>In Computing, children will develop an understanding of technology and how it can help them. They will be become more familiar with the different components of a computer by developing their keyboard and mouse skills, and also start to consider how to use technology responsibly.</p>
	<p>You could support at home by talking about and using maps, and showing your child how useful and interesting they can be. Use positional language e.g. "come and sit beside me", or "put the spoon above the plate."</p>
<p>Character & Jigsaw</p>	<p>Character: Your child is learning about, bravery, self-control, and love and kindness. Pupils are listening to and talking about stories with these character virtues threaded throughout before considering how they apply them in their lives. They will then be putting them into practise in the classroom and around the wider school.</p> <p>Jigsaw: This term the children will be exploring the topic 'Being Me in my World'. This will cover how to grow current friendships and make new friends. They will also learn skills of mindfulness and how to find moments of calm.</p>
	<p>You could support by asking your child how they showed bravery today. You could also encourage them to always speak with a confident voice while making eye contact. Please use the language of good and bad choices at home and help the children to reflect on their choices. You could also encourage teamwork in the home environment by encouraging your child to work positively with others.</p>
<p>Art</p>	<p>Your child is learning about elements of colour. This includes primary colours and how to mix secondary colours; warm and cool colour. They will explore tint and shade as they make colours lighter and darker. Pupils will look at a variety of artists work such as: Van Gogh, Bruegel, Vermeer, Hockney and Monet. The will look at paintings by these artists and discuss the artist uses tint and shade to make the water look 'real'. Following this they will have a go at using their skills to create artwork in the style of our focus artists.</p>
	<p>You could support by talking to your child about how different colours make them feel. Use the language of dark and light to describe the sunset or parts of the moon.</p>
<p>Music</p>	<p>Your child will continue to take part in our music scheme Charanga. This half term Year 1 will focus on pulse and rhythm elements of music.</p>
	<p>You could support by asking your child to practice what they have learnt by using a confident signing voice at home.</p>
<p>P.E. and Dance</p>	<p>In Year 1 this term, the children will be learning about a variety of different key actions which multiple sports use through fundamental games. These will focus on throwing and catching, kicking, running and jumping etc. Each lesson will have two or three main themes with one of those relating to the upper schools' curriculum sport of Hockey. This will give the Year 1's a brief insight into what the older children are learning. Spatial awareness is a key phase in this terms Year 1 PE, learning about the importance of it and how to apply it to a variety of sports.</p>

	Please ensure your child comes into school wearing their full P.E. kit on their PE day which is Monday.
--	---

General reminder – Please ensure that your child has a waterproof coat in school every day so that they can play outside come rain or shine. As we know, the weather in England can change very rapidly! All coats and PE kits must be clearly named.
